Variants of DTX-3 Nokia 32

Transceiver Variants

Table 1:

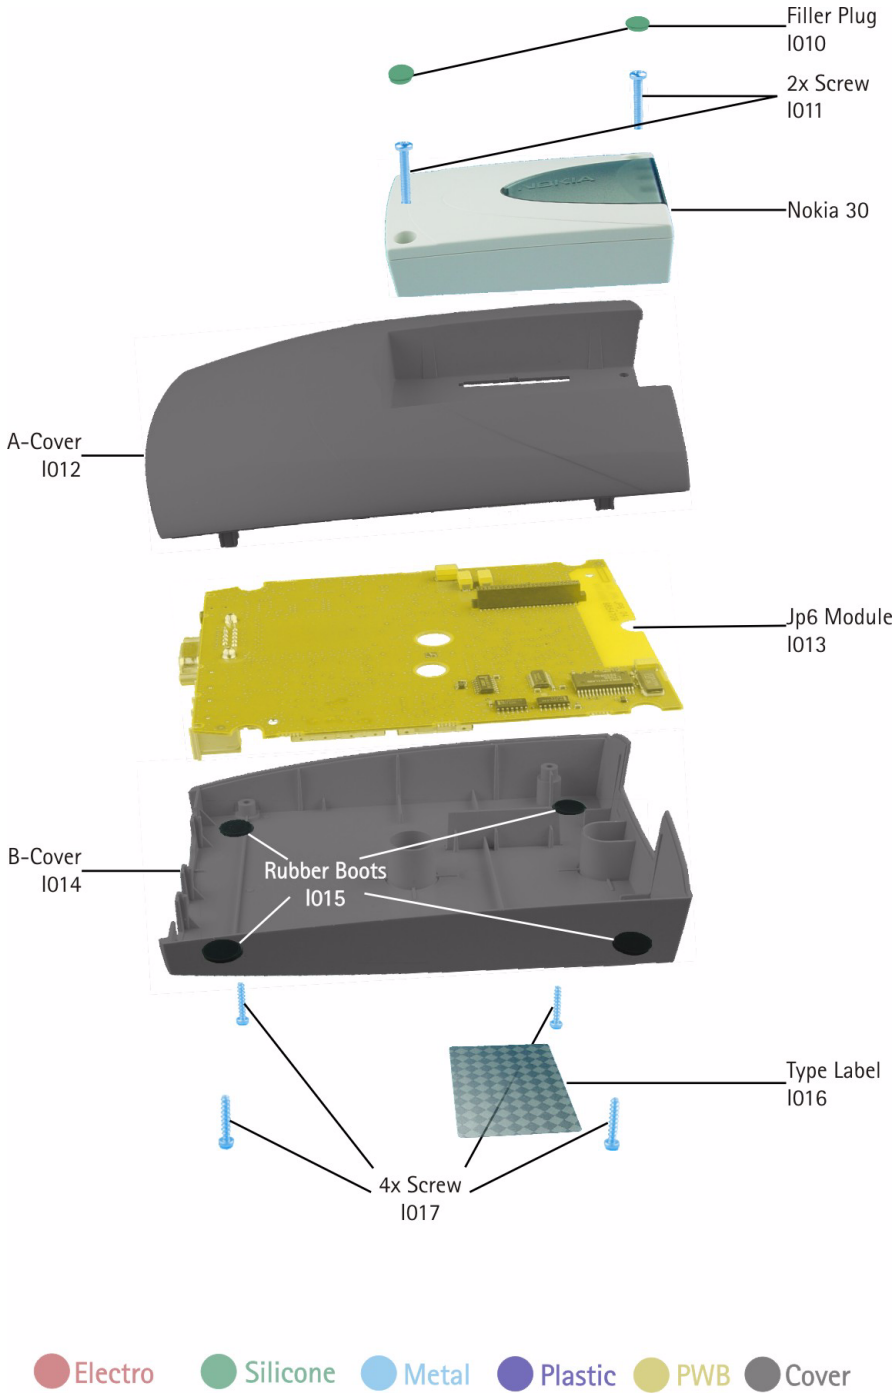
Name	Type des.	Code
Transceiver TME-3	TME-3	**0600344**
Transceiver TME-4	TME-4	**0600342**

Country-specific settings

The country code allows different country-specific settings to be activated in SWAP-module. Choose Software -> Line Adapter -> Settings.

DTX-3 Exploded Diagram

The following picture shows the exploded view of DTX-3 module.



The application module consists of two injection moulded plastic parts, frame and bracket for the Application Interface connector (pin header) and a PWB inside the module.
